Energy Efficiency Rebates for Your Business

Carefully read the specifications below to determine that you are installing a qualifying product(s). Funding for this program is limited and available on a first-come, first-served basis until allocated funds are exhausted, or December 31, 2012, whichever comes first. This program may be modified or terminated without prior notice. Additional terms and conditions apply. For our most up-to-date catalog, please visit [www.pge.com/businessrebates](http://www.pge.com/businessrebates).

## Network Desktop Computer Power Management Software

### Requirements:

- Installation address must have a commercial electric account with Pacific Gas and Electric Company (PG&E).
- For control of desktop computers only.
- In order to qualify for this rebate, customers must install qualifying software found on the list at this link: [www.pge.com/powermanagementsoftware](http://www.pge.com/powermanagementsoftware). Some software is only compatible with specific operating systems.
- Installation must allow centralized control at the server level of the power management settings (sleep mode and shutdown) of desktop computers on a distributed network.
- The software must have a reporting feature that allows monitoring and validation of energy savings.
- Customers must agree to keep the software installed and operating for a period of five years from the initial installation date.
- A report (print-out) directly from the Network Power Management Software must be included with your application that shows:
  1. The location (installation address) of desktop computers that are being controlled by the system.
  2. The number of desktop computers that are being controlled by the system, grouped and totaled by each location.

- Qualifying software must result from:
  - a. A new installation, where none previously existed. or
  - b. An upgrade of an operating system or other network support software where the desktop computer power management function did not previously exist.
- When contacted, customers must allow PG&E access to customers' property site to verify:
  1. The installation of the software.
  2. The location of the installed control software (at the server level).
  3. The number of desktop computers controlled by the system.

### Exclusions:

- Not for control of laptop and laptop stations. Laptops will not receive a rebate.

Rebate Code	Description	Rebate/Unit Measure
M03	Network Desktop Computer Power Management Software	\$15.00/desktop computer

## Plug Load Occupancy Sensors

The plug load occupancy sensor is installed in an office or cubicle to control the office equipment and task lighting when the space is unoccupied. The sensor, plugs and switches are mounted in a single unit which can control power to devices such as computers, printers and task lamps.

### Requirements:

- Installation address must have a commercial electric account with PG&E.
- Only passive infrared and/or ultrasonic detectors.
- Plug-load sensors must control electricity using equipment in offices or cubicles, including shared copiers and/or printers.

Rebate Code	Description	Rebate/Unit Measure
L65	Plug Load Occupancy Sensor	\$15.00/sensor

## More ways for your business to save money.

Looking for more information on Pacific Gas and Electric Company's (PG&E) rebates and incentives for your business? Visit [www.pge.com/moneybacksolutions](http://www.pge.com/moneybacksolutions) to access the latest rebate information, catalogs, application and guidance for your next energy-efficiency upgrade. In addition to rebates, you can find a wide range of tools and resources that can help your business save energy, money and help the environment.

- Sign up for PG&E's Automated Benchmarking Service at [www.pge.com/benchmarking](http://www.pge.com/benchmarking). Use ENERGY STAR® Portfolio Manager to track and compare your facility's energy performance over time.
- Use PG&E's audit tools to identify options for saving energy and money at your facility, and get started on developing a comprehensive energy management plan.
- Find a suite of customized incentives for retrofitting outdated, inefficient equipment, as well as incentives to optimize existing equipment through retrocommissioning.
- Explore PG&E's demand response programs that offer incentives for managing your energy use during times of peak demand.
- Check out PG&E's incentives for solar, wind and fuel cell self-generation equipment, if you're considering generating your own electricity.

Ready to get started with your next project and need the help of a contractor? Find local vendors who participate in PG&E's Energy Efficiency Rebates for Your Business Program [www.pge.com/tradeprodirectory](http://www.pge.com/tradeprodirectory).

You can also apply online or check the status of your rebate through eRebates at [www.pge.com/mybusiness/erebates](http://www.pge.com/mybusiness/erebates).

To learn how PG&E can help your business find innovative energy solutions, manage energy consumption and reduce costs, please contact PG&E's Business Customer Service Center at 1-800-468-4743.
